SAFETY MEASURES FATALITIES <i>Fatalities per 10k daily bicyclists</i>	4	0

- » Develop a comprehensive bike plan.
- » Your Bicycle Advisory Committee should meet monthly to step up your Bicycle Friendly Community efforts.
- » Adopt standards for bike parking that conform to APBP guidelines. Upgrade non-compliant bike racks and continue to increase the amount of bike parking throughout the community.
- » Upgrade your on-street bicycle network. Ensure that all bicycle facilities conform to current best practices and guidelines.
- » Adequately maintain your on and off street bicycle infrastructure to ensure usability and safety. Increase the frequency of sweepings (particularly in the spring) and address potholes and other hazards faster.

- » Offer regular bicycling skills training opportunities for adults. There are options from short videos and 1-2 hour courses to more in-depth training incorporating in-classroom and on-bike instruction.
- » Promote cycling throughout the year by offering or supporting more family-oriented community and charity rides and bicycle-themed festivals, parades or shows.
- » Encourage South Dakota State University to promote cycling to students, staff, and faculty and to seek recognition through the Bicycle Friendly University program.
